

The system

The Supreme S.W.R. drainage system is designed for quick and efficient removal of waste without leakage. It is highly resilient, tough and durable with high tensile and impact strength. Moreover it is free from scale formation, rusting, weathering and chemical action. It is virtually immune to attack from bacteria, fungi, micro-organisms and insects. Thus, the system is a long term solution for building drainage with estimated life over 50 years. In addition to the various benefits, it is more cost effective than any conventional drainage system and is approved by MCGM.

Product specifications and range

Pipes are available in 50 to 160mm dia. and fittings are available in 40 to 160mm dia. Pipes conform to IS:13592-92 and fittings conform to IS:14735-99 and as per international standards. Supreme S.W.R. drainage system is available in

- Rubber ring type joints
- Fix 'O' ring type seal design
- Pasted type joints (solvent weld)

Unique features

High quality and wide range - The system consists of pipes and a wide range of fittings with various traps, which makes the system complete in all respect and hence customer need not to depend on conventional systems.

Strong and long lasting - This system is highly resilient, tough and durable with high tensile strength and high impact strength. Moreover it is free from problems caused by scale formation, rusting, weathering and chemical action and hence it lasts for lifetime.

Excellent chemical and corrosion resistance - Being non-metallic, this system is completely free from corrosion and offers very good resistance to wide range of chemicals.

UV resistance - It eliminates the adverse effect of sunlight and weather and can safely used for outdoor installations.

Quick and convenient installation - Being extremely light in weight and provided with special rubber jointing technique, installation of this system becomes very easy.

Quick and efficient removal of waste without leakage - Mirror smooth and restriction free inner surface of pipes and fittings ensures superior flow characteristics making the system is free from problems of clogging and drain choke-up. System is completely leak-proof and designed to maintain high standards of hygiene.

Adequate and easy access for cleaning and clearing obstructions.

Least maintenance - Once installed Supreme S.W.R. drainage system needs minimal maintenance.

Cost effective - Supreme S.W.R. drainage system is more cost effective than any conventional drainage system.
